Morning Consult
National Tracking Poll #150202
February 06-09, 2015

Crosstabulation Results

Methodology:

This poll was conducted from February 06-09, 2015, among a national sample of 1781 registered voters. The interviews were conducted online and the data were weighted to approximate a target sample of registered voters based on age, race/ethnicity, gender, educational attainment, region, annual household income, home ownership status and marital status. Results from the full survey have a margin of error of plus or minus 2.3 percentage points.

Table H1: As you may have heard, the Supreme Court recently agreed to hear a case challenging whether the federal government can provide subsidies to help people purchase health insurance through the federal health exchange, also known as *healthcare.gov*. If the court finds that those subsidies are illegal, which of the following do you believe states using the federal health exchange should do?

Demographic	Use some state and some federal funds to build a state-based exchange that can provide subsidies for health insurance coverage to eligible individuals.		Take no action, meaning eligible individuals in the state will no longer receive subsidies for health insurance coverage.		Don't Know / No Opinion		Total N

Table H2: As you may have heard, the Supreme Court agreed to hear a case challenging whether the federal government can provide subsidies to help people purchase health insurance through the federal health exchange, also known as *healthcare.gov*. If the court finds that those subsidies are illegal, do you think the federal government should have a new plan to help the people who were getting subsidized health insurance but may lose that financial support?
