Morning Consult
National Tracking Poll #150505
May 29-31, 2015

Crosstabulation Results

Methodology:

This poll was conducted from May 29-31, 2015, among a national sample of 2173 registered voters. The interviews were conducted online and the data were weighted to approximate a target sample of registered voters based on age, race/ethnicity, gender, educational attainment, region, annual household income, home ownership status and marital status. Results from the full survey have a margin of error of plus or minus 2 percentage points.

Table H2NET: *As you may have heard, the Supreme Court agreed to hear a case challenging whether the federal government can provide subsidies to help people purchase health insurance through the federal health exchange, also known as healthcare.gov. If the court finds that those subsidies are illegal, do you think the federal government should have a new plan to help the people who were getting subsidized health insurance but may lose that financial support?*

Table H2: As you may have heard, the Supreme Court agreed to hear a case challenging whether the federal government can provide subsidies to help people purchase health insurance through the federal health exchange, also known as healthcare.gov. If the court finds that those subsidies are illegal, do you think the federal government should have a new plan to help the people who were getting subsidized health insurance but may lose that financial support?
