Morning Consult  
National Tracking Poll #150603  
June 12-15, 2015

## Crosstabulation Results

### Methodology:

This poll was conducted from June 12-15, 2015, among a national sample of 2039 registered voters. The interviews were conducted online and the data were weighted to approximate a target sample of registered voters based on age, race/ethnicity, gender, educational attainment, region, annual household income, home ownership status and marital status. Results from the full survey have a margin of error of plus or minus 2 percentage points.

**Table H3:** As you may have heard, the Supreme Court will issue a decision on a case challenging whether the federal government can provide subsidies to help people purchase health insurance through the federal health exchange, also known as *healthcare.gov*. If the court finds that those subsidies are illegal, which of the following do you believe states using the federal health exchange should do?

Demographic	Use some state and some federal funds to build a state-based exchange that can provide subsidies for health insurance coverage to eligible individuals.		Take no action, meaning eligible individuals in the state will no longer receive subsidies for health insurance coverage.		Don't Know / No Opinion		Total N
