Table POL5: As you may know, last week U.S. intelligence agencies released a report charging that Russia and its president, Vladimir Putin engaged in a campaign to help Donald Trump win last years presidential election. The report states the Russian campaign included hacking of Democratic party officials, staff and campaigns. Donald Trump says he thinks Russia was responsible for the hacks, but they had absolutely no effect on the outcome of the election. Do you believe the hacks affected the outcome of the election?
