

National Tracking Poll #180549
May 25-31, 2018

Crosstabulation Results

Methodology:

This poll was conducted from May 25-31, 2018, among a national sample of 2201 Adults. The interviews were conducted online and the data were weighted to approximate a target sample of Adults based on age, race/ethnicity, gender, educational attainment, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.

Table BRD9: As you may know, California recently adopted new standards mandating that most new homes constructed in the state starting in 2020 must be built with solar panels. The state agency estimates that the mandate will add about \$40 to homeowners average monthly mortgage payment on a 30-year mortgage, while saving consumers \$80 on monthly energy costs. Would you support or oppose this action in your own state?
