

National Tracking Poll #190147
January 23-24, 2019

Crosstabulation Results

Methodology:

This poll was conducted from January 23-24, 2019, among a national sample of 2152 adults in the U.K. The interviews were conducted online and the data were weighted to approximate a target sample of Adults based on age, race/ethnicity, gender, educational attainment, and region. Results from the full survey have a margin of error of plus or minus 2 percentage points.

Table Index

- 1 **Table Brxt1:** *Now, generally speaking, would you say that things in the country are going in the right direction, or are they pretty seriously on the wrong track?* 6
- 2 **Table Brxt2:** *We are interested in how people are getting along financially these days. Would you say that you (and your family living there) are better off or worse off financially than you were a year ago?* 9
- 3 **Table Brxt3:** *Now looking ahead – do you think that a year from now you (and your family living there) will be better off financially, or worse off, or just about the same as now?* 12
- 4 **Table Brxt4:** *Now turning to business conditions in the country as a whole – do you think that during the next twelve months we will have good times financially, or bad times?* 15
- 5 **Table Brxt5:** *Looking ahead, which would you say is more likely – that in the country as a whole we will have continuous good times during the next five years or so, or that we will have periods of widespread unemployment or depression?* 18
- 6 **Table Brxt6:** *About the big things people buy for their homes – such as furniture, white goods, a television, and things like that. Generally speaking, do you think now is a good or bad time for people to buy major household items?* 21
- 7 **Table Brxt7:** *Would you say that the parliament in the UK is:* 24
- 8 **Table Brxt8:** *Which of the following statements comes closer to your view, even if neither is exactly right?* 27
- 9 **Table Brxt9:** *How confident are you that the UK parliament can solve the most urgent problems facing the country?* 30
- 10 **Table Brxt10:** *How confident are you that the UK parliament is capable of representing the interests of UK citizens?* 33
- 11 **Table Brxt11:** *How closely have you followed news and information about the UK's negotiations to leave the European Union following the 2016 EU referendum, otherwise known as Brexit?* 36
- 12 **Table Brxt12:** *How confident are you that the current UK parliament will be able to agree to a deal before Article 50 expires on March 29th?* 39
- 13 **Table Brxt13_1:** *A deal to leave the European Union negotiated by Prime Minister Theresa May was defeated by a vote of 202 to 432 in Parliament on January 15th. The deal would have included: 1) A 21-month transition period before the terms of Brexit take effect 2) A provision that protects the rights of 1) EU citizens currently living in the UK and 2) UK nationals living in the EU by maintaining their current living arrangements and legal status 3) A roughly 39 bn pound payment from the EU to the UK to cover its remaining financial member obligations to the EU 4) A 'backstop' if Northern Ireland and the Republic of Ireland cannot reach a separate free trade agreement. The UK would remain in the customs union, and Northern Ireland would follow rules similar to the current single market, preventing the UK from exiting the backstop unless the EU agrees that there is no chance that a hard border will return in Ireland Assuming that the UK does ultimately leave the EU, how supportive or opposed would you be of each of the following terms of a proposed Brexit agreement? 21-month transition period before the terms of Brexit take effect* 42

Table Brxt13_1: A deal to leave the European Union negotiated by Prime Minister Theresa May was defeated by a vote of 202 to 432 in Parliament on January 15th. The deal would have included: 1) A 21-month transition period before the terms of Brexit take effect 2) A provision that protects the rights of 1) EU citizens currently living in the UK and 2) UK nationals living in the EU by maintaining their current living arrangements and legal status 3) A roughly 39 bn pound payment from the EU to the UK to cover its remaining financial member obligations to the EU 4) A 'backstop' if Northern Ireland and the Republic of Ireland cannot reach a separate free trade agreement. The UK would remain in the customs union, and Northern Ireland would follow rules similar to the current single market, preventing the UK from exiting the backstop unless the EU agrees that there is no chance that a hard border will return in Ireland Assuming that the UK does ultimately leave the EU, how supportive or opposed would you be of each of the following terms of a proposed Brexit agreement?

Table Brxt13_2: A deal to leave the European Union negotiated by Prime Minister Theresa May was defeated by a vote of 202 to 432 in Parliament on January 15th. The deal would have included: 1) A 21-month transition period before the terms of Brexit take effect 2) A provision that protects the rights of 1) EU citizens currently living in the UK and 2) UK nationals living in the EU by maintaining their current living arrangements and legal status 3) A roughly 39 bn pound payment from the EU to the UK to cover its remaining financial member obligations to the EU 4) A 'backstop' if Northern Ireland and the Republic of Ireland cannot reach a separate free trade agreement. The UK would remain in the customs union, and Northern Ireland would follow rules similar to the current single market, preventing the UK from exiting the backstop unless the EU agrees that there is no chance that a hard border will return in Ireland Assuming that the UK does ultimately leave the EU, how supportive or opposed would you be of each of the following terms of a proposed Brexit agreement?

Table Brxt13_3: A deal to leave the European Union negotiated by Prime Minister Theresa May was defeated by a vote of 202 to 432 in Parliament on January 15th. The deal would have included: 1) A 21-month transition period before the terms of Brexit take effect 2) A provision that protects the rights of 1) EU citizens currently living in the UK and 2) UK nationals living in the EU by maintaining their current living arrangements and legal status 3) A roughly 39 bn pound payment from the EU to the UK to cover its remaining financial member obligations to the EU 4) A 'backstop' if Northern Ireland and the Republic of Ireland cannot reach a separate free trade agreement. The UK would remain in the customs union, and Northern Ireland would follow rules similar to the current single market, preventing the UK from exiting the backstop unless the EU agrees that there is no chance that a hard border will return in Ireland Assuming that the UK does ultimately leave the EU, how supportive or opposed would you be of each of the following terms of a proposed Brexit agreement?
