Table CCS4: As you may know, a new strain of a virus called coronavirus was identified by Chinese authorities in early January and has spread around the world, infecting more than 9,000 individuals and killing over 200 people. It was recently confirmed that the first person-to-person transmission occurred in the United States. On January 30th, 2020, the World Health Organization declared this outbreak of the coronavirus is a global health emergency, posing a risk to countries outside of China.Based on what you know, how concerned are you about the outbreak of coronavirus?
