Table CCS1: As you may know, a new strain of a virus called coronavirus was identified by Chinese authorities in early January, and has spread around the world, infecting more than 75,000 individuals and killing over 2,600 people. The World Health Organization declared this outbreak of the coronavirus is a global health emergency, posing a risk to countries outside of China. President Trump declared a public health emergency in the United States shortly after.Based on what you know, how concerned are you about the outbreak of coronavirus?
